Press release

## VIA Investments Win Red Herring Awards

Via Venture Partners portfolio companies Speaknet and Zoomio are among just 5 Danish companies to be selected for Red Herring's list of Europe's top 100 startups. See the list at <http://www.redherring.com/Home/24131>

Speaknet, which provides companies with a 100% software-based switchboard for mobiles, was also selected best Start-up in Ernst & Young's prestigious Entrepreneur Of The Year in the 2005 competition, and was labelled Cool Vendor of the Year by Gartner Group in 2007.

Zoomio, which helps companies automate marketing campaigns and combine communication channels, receives the recognition only weeks after being awarded the German "Initiative Mittelstand" prize – for the third year in a row.
